2.18- Ley Lines

Ley lines are telluric energy lines that deflect with the metal Gold; they can reach a distance by some or by hundreds of kilometers. The Law lines are not harmful to health but are some lines of spiritual intensity that cover the entire planet. Some sacred places such as - for example - Glastonbury or Chartres Cathedral are located on ley lines.

From the level of clairvoyance, these earth lines do not appear as lines, but as walls. This could also have been inferred from the fact that a line that is on the ground floor of a building will also be detected in the same place on each of the floors. These walls can be seen as a kind of smoky energy.
