5.7- Interior design

The interior design for Centro Amma is based on the fact that each of the 22 rooms will be decorated, decorated and designed with the corresponding energy and geometrical correspondence of the chakra. In such a way that unique and specific spaces are created to restore the energy balance of such a chakra. In addition, a unique palette and authentic textures will be achieved in each space. The portfolio for decoration consists of the relationship of each chakra in its geometric shape, its color, musical note, numerical tone, crystals, element, aroma and constellation.
